APO 520 U.S.ARMY

S T A T E M E N T

While flying No. 4 position, "C" Box, in A/C 395 on a combat mission 17 August 1944 I saw A/C 560, flying No. 5 position, burst into flames and go into a dive. After diving approximately 5000 feet the tail section of the A/C broke off. The fire was caused by a direct flak hit on the No. 3 engine. I saw four men bail out of A/C from the waist section immediately after start of fire. Three of the chutes opened and the fourth caught fire after opening.
